HARIBHAI PARTHIBHAI CHAUDHARY

(a) whether the Government have made any arrangements to test the quality of medicines;

(b) if so, the number of medicines tested during the last three years and the number of medicines found spurious during testing alongwith the names of such medicines and the companies also which manufactured them; and

(c) the nature of action taken by the Government against these companies?

Answer

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI A. RAJA)

(a) Yes, Sir. Under the provisions of Drugs and Cosmetics Act, 1940 and rules thereunder, State Governments have been empowered to enforce check on quality of medicines manufactured and sold in the market. The State Drugs Control Officers randomly draw samples from manufacturers, traders and get their quality validated through Govt. Laboratories.

(b) & (c) As per the feedback available from the State Licensing Authorities 38936; 35570 and 36947 samples of drugs were tested during the year 1998-99; 1999-2000 and 2000-2001 respectively. A statement indicating the names of the medicines, chemists/manufacturers together with the action taken against them is at Annexure-I.

Lok Sabha admitted question No.1524 (Diary No.3864) for 24.7.2002

A statement indicating name of the medicines, chemists/manufacturers against whom action has been taken by the licensing authorities for selling not of standard quality drugs infringing Drugs and Cosmetics Rules for the period 1999-2000 and 2000-2001.
